This report contains information about some of the activities of WV RESAs during the 2015-2016 school year. Not all RESAs provide all the services listed and all RESAs offer additional services as determined appropriate by each local RESA Council. Services not only differ from RESA to RESA, they also differ within each RESA from time to time. Being able to offer the right services at the right time allows RESAs to meet the needs of county schools and school systems as well as support WVDE and WVBE initiatives and goals. A complete Annual Report for each RESA may be found by going to the web site of each RESA or hard copies may be obtained by contacting the individual RESA offices.

A powerful engine for education

WV Board of Education Policy 3233

“Each RESA shall submit...an evaluation of the services provided within each respective region and their effectiveness. The evaluation is to be completed by schools, school systems and others using the RESA’s services/programs and must include 1) an overall evaluation of the RESA’s services/programs; 2) suggestions on methods to improve the utilization of existing services/programs; 3) suggestions on how existing services/programs may be enhanced; and 4) what new services/programs would be of benefit to schools and school systems.”

EVALUATION OF FY’16 RESA 4 SERVICES

This form represents a mandated evaluation of RESA 4 services which is an annual Legislative requirement beginning January 1991. Your cooperation in assisting us is greatly appreciated.

1. Circle a number on the scale to indicate your evaluation of those RESA 4 programs.

USED BY YOUR SCHOOL.

(14)	(14)	(4)		
5	4	3	2	1
HIGH		MODERATE		LOW

2. How could utilization of these programs be improved? I’ve always found these programs to be high quality and very helpful. Scheduling is always an issue in a school and you have to be flexible at times to be able to attend. Having trainings brought to school. Unsure—new to position. IPI, Principals’ Institute, and sessions for teachers. Make additional people available to deliver services. Trainers work in schools more. These programs meet our school’s needs. More hands on programs. More time for collaboration/reflection and time to work out how to do things together. More time (CE Days) or money to pay for subs. I need continual reminding. We learn valuable information, go back to our schools, and get lost in everyday managerial duties. Be more involved in local PD. More availability of science kits, stem kits, etc. It is hard to plan so far in advance and hard to be ready when kits are available. More in house embedded professional development. However, that would require more funding. We are utilizing RESA services now more than ever at my school. Providing lists of supports to choose from. To set a yearly schedule if possible. Plan ahead using the data to determine the needs of the teachers. Offer PD during the summer.

3. What new programs would you like to see developed? New technologies as they become available. What are some of the most “successful” districts in WV doing? Scheduling ideas for Art and Music. Co-teaching programs. Unsure—new to position. Cross county grade level teacher

communication. School-based staff to provide PD in-house. Writing cadre – Nevada writing project created writingfix.com. I would love to see this developed here. Something related to managing severe behavior problems in the classroom. More development with staff in areas of writing, SLPs, Behavior Management. I would like for RESA to have sessions at the PLA especially with WVEIS. Technology integration. De-escalating problem students. It’s hard to say, because the State continues to make so many changes. It’s difficult to keep up with what is wanted or expected. Recruitment of substitute teachers. Would like to have another training on Odyssey ware. More student-centered instructional tools, lessons, etc. How to create technology enhanced lessons. Ruby Payne training for whole staff ongoing. Programs to address student engagement, classroom management. Offer continuing education hours.

4. How could existing programs be enhanced? You are doing fine – appreciate the leadership role RESA 4 is able to assume. Better announce what trainings are available and when. Unsure—new to position. Better communication as to what is available from RESA. A way for information to be shared with all. Not sure at present time. More hands on activities. WVEIS and gradebook integration. Follow-up activities. The presentations by Dr. Anthony Muhammad were very informative, but I would like time to work with other administrators to better implement ideas. Having the time to find out if something is actually going to work would be ideal. Implementation of a good or bad program requires extended time. This is something we just aren’t given. Stronger Graduation 20/20 Program. Re-offer existing programs after a few years for new employees and re-training of those that have had. I enjoy training for principals. I would like to see more training for a two-day workshop. I’ve been very pleased with the support as is. Have a schedule on the website, keep it up to date. Get researched-based speakers. High interest and required trainings should be offered in summer.

5. Additional suggestions/comments. RESA always helps when I call...honestly, I think they do what they are mandated to. Jo Malcolm has been very helpful with the K-2 RLA program. RESA 4 offers excellent programs. The struggle is find the funding we need to hire subs so teaches can attend. WVEIS support is great. You all do a great job! RESA is a great support organization. The round table session at the last session were very useful. You guys do a GREAT Job! Thanks. The help I receive from Nicole and Karen is wonderful. The service of the technicians is also very helpful. I really enjoy the principals’ trainings and the strong PD we have received. More PLC trainings for teachers. I think the RESA 4 staff does a great job! Dave, Sarah, Jo and Judy are the ones I work with most, but they are great people, and all WVEIS staff are great, too! RESA 4 has been an outstanding support to our school. They have supported us in IPI coding, behavior plans, technology integration, WVEIS support, and more. Please consider offering more summer PD. Julia has done a great job working with our after-school programs.
